Movement to be Discussed-Meeting of the State Committee on Friday to Nominate It was announced last night that Mr. Cleveland's letter of acceptance will be issued from Buzzard's Bay to-morrow, and that Mr. Cleveland will be in town at the Victoria Hotel on Thursday. Ex-Postmaster General Dickinson passed the day in Boston, and was in communication with Mr. Cleveland at Buzzard's Bay.

After the discussion on Wednesday afternoon between Mr. Harrity and Mr. Dickinson with the committee of ex-Mayor Grace's followers, there will be a further conference on the proposed third local ticket with Mr. Cleve land himself on Thursday.

Indeed, one of the principal reasons for Mr Cleveland's visit at this time is to join with Mr. Harrity, Mr. Dickinson, and Mr. Whitney and Mr. Grace's friends in undoing the tangle.

Edward Murphy, Jr., Chairman, and Inilroad Commissioner Sumuel A. Beardsley, Secretary of the Democratic State Committee arrived at the Hoffman House last evening. Mr. Murphy and Mr. Beardsley are in town to issue the call for the meeting of the State Committee to nominate a candidate for Chief Judge of the Court of Appeals in place of the late William C. Ruger. The call will be issued to-day for the committee to meet at the Hoff man House on Friday evening. Although no

man House on Friday evening. Although no decision has been reached as to the candidate, the talk last night was about Judge Bufus W. Peckham of Albany. Judge Feckham's term as an Associate Judge of the court expires on Dec. 31, 1000.

Mr. Murphy and Mr. Beardsley will remain in town until after the committee meets. While here they will confer with Licut. Gov. Sheeham. Chairman of the Democratic State Campaign Committee, Richard Croker, Hugh McLaughlin, and others. When Mr. Cleveland comes from Huzzard's Jay, he also will confer with Mr. Murphy, Mr. Sheehan. Mr. Croker, and Mr. McLaughlin on the outlook, especially in New York State. Mr. Murphy said hast night that the situation in his opinion was splendid in the upper counties.

At Democratic National Headquarters they are amusing themselves wondering whether Vermont has not elected a Prohibition Governor. Under the Constitution of the State they say that directors of mational banks are ineligible for election to the exceutive offices of the State. Bradley B. Smalley, the Lemocratic candidate for Governor in the recent contest, is a director in a national bank. Levi K. Fuller, the successful Republican candidate, is also a director in a national bank. Perhaps the Prohibition candidate is not. It is perhaps a little late in the day to discover such a "find."

The Hon. Thomas Henry Carter started for Washington yesterday to confer with President Harrison on the progress of the national Republican campaign. It has been decided that Whitelaw Reisi will take the stump in New England, opening in Hoston on Oct. 4. Chairman Charles W. Hackett of the Republican State Campaign Committee spart the day in Brooklyn. He returned convinced that the scrappers in Kings county would cease their ructions and get down to business. Although there are no registry figures as yet to determine the actual facts, rot a few Republicans and just as many Democrats are convinced that there will be a material falling off in the vote this fall. The municipal elections in New York and Rings may stimulate things somewhat. The upcountry yote, though, is in danger of falling down. This applies to the Democrats as well as the Republicans. The State tichet, consisting only of a nomination for Chief Judge of the Court of Appeals, is not sufficient it is apprehended, to arouse violent enthusiasm on either side. With this situation confronting Licut-Goy. Sheehan and Prer Hacket; the work on both sides is to corvine the up country voters that the fate of the nation for many years to come rests on their getting out and whooping it up for Cleveland or Harrison.

AN INTERESTING QUESTION.

Shall the Electoral College Be Bused on the New or O d Apportionment !

WASHINGTON, Sept. 25. - William Walker, in a letter to the Washington Post, raises a question in connection with the aproaching election that may be of importance, as it certainly is of interest. Referring to the generally accepted theory that the Electoral College of 1803 will contain 444 votes. Mr. Walker says: Paragraph 2, section 1, Articly 11, of the Constitution is as follows:

"Each State shall appoint, in such manner as the Logislature thereof shall determine, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in the

"Which Congress does this refer to? is the questi n. Is it the one in existence or one in the future? The Fifty-third Congress, upon which is based the 444 electoral votes, cannot exist until after the next President and Vice-President shall have been elected. If the membership of the Fifty-second Congress shall decide the election, in case there should be no election by the Electoral College, and not the Fifty-third Congress, why is it that an Electoral College based on the new ap-portionment under which the Fifty-third Congress is to be elected is to decide the election? Fach political party seems to be acting upon the same premises taken by you, but would it not be wise to consider this question in time to avoid what might eventuate into a danger-ous complication.

CAMPAIGN PLEASANTEILS.

Another People's Party Candidate Having a Hard Time in Georgia.

ATLANTA. Sept. 25 .- Following the experience of Gen. Weaver, the l'eople's party candidate for President, Gen. Field, the Vice-Presidential candidate, is now having a warm time. In Cordele last night he began his speech by an attack upon the speeches of Gen. Stevenson, characterizing them as being of a low order. He said that Mr. Stevenson, while in the West confined himself to the tariff, but in Virginia he devoted his speeches to the dis-cussion of the reconstruction days and arin Virginia he devoted his speeches to the discussion of the reconstruction days and appealing to the prejudices of the people. Continuing, he made an attack upon the record of the Democratic party, and accused Mr. Cleveland of being a despotie;

That's not correct, said a voice, which proved to belong to the Rev. R. D. Gentry of Eastman.

I say it is so, "squeaked Gen. Field.

I say it is not so," rejoined Mr. Gentry, you are a liar," should the General.

You are a nother," the Eastman man replied.

Turning to Major Scott, the General asked if Turning to Major Scott, the General asked if he could not get protection from interruption by "that blackguard." Mr. Gentry arosa from his seat and started toward the stage, but was prevailed upon to take his seat, and no further interruptions occurred.

DR. IXUM'S FIGURES.

A People's Party Candidate in Georgia Mukes Some Ante-Election Statements. WINSTON, N. C., Sept. 25.- Dr. Exum, People's party candidate for Governor, passed through the city yesterday on his campaign tour. While here he was interviewed on the political situation. He said: "I think the People's party will get a majority of the white votes all overthe State. My figures for the three parties are: People's party, 105,000; Republicans, 95,000; Democrats, between 70,000 and 80,000. I believe that the majority of our nominees for the Legislature and Congress will be elected.

"I have always been a Democrat." con-tinued Dr. Exum. "but I want to say if the Feople's party was out of the race the Repub-licans would whip the Democrats this year." The Doctor said he was in the race to stay, and he believed he would be elected.

Chairma Carter in Washington. Washington, Sept. 25,-Thomas H. Carter, Chairman of the Republican National Committee, spent Sunday in Washington, and was in conference with a number of officials upon political matters. Among those whom he political matters. Among those whom he saw were Secretary of State Foster, Secretary Noble. Private Secretary Halford, Secretary Elkins, Private Secretary I. T. Michner, and others. Horeturned to New York on the midnight rain. Mr. Carter was not communicative upon either the object of his visit or the prospects of the campaign. He did say, however, that the Republicans would carry New York, New Jersey, and Connecticut.

Endorsed the Socialist Ticket.

At the meeting of the Central Labor Federition, at 385 Bowers, yesterday, Cigar Makers' Union, 90, the Carl Bahm Club of Musicians, and Tailors' Union, 11, endorsed the ticket of the Socialistic Labor party. Cigar Makers Union, 60, reported that it was in favor of joining the International Labor Bureau.

REPUBLICANS INVENT AN ISSUI.

They Will Make the State Back Question

WASHINGTON, Sept. 25, Secretary Charles Foster is expected to furnish the managers of the Harrison campaign with a political sen-aion within the next few days. The Force bill has failed to arouse public sentiment, except in the interest of the Democratic party, and the tariff lasue appears to be working to the disadvantage of the Administration in New England and the West, where the Republicans had great expectations. The ill success which has attended these two issues made it necessary to try something else.

The expected sensation is contained in a

statement being prepared by "Harry" Smith. t former Journal Clerk of the House of Representatives, and now Assistant Register of the Trensury, under Gen. Rosecrans. At the last session of Congress a resolution was adopted, calling upon the Secretary of the Treatury for certain information relative to the national tanking system. When it was decided by the Republican managers to get up an issue on the plank in the Democratic platform demanding the repeal of this 10 per cent tax on the notes issued by State banks ingland and interview some of the leading

Smith was detailed to make a visit to New lankers and capitalists on the subject. As in he case of Commissioner Peck in New York. England make some startling statements and produce some astonishing figures in opposition to the State banking system, which the Republicans hope to use with good effect in attracting public attention from the Force bill and the tariff issue. The report which Mr. Smith is preparing is to be made to Congress next winter, but it is understood that Secretary Foster proposes to give out certain portary who have been interviewed on the subject will be withheld, but their statements will be promulgated, with the hope and expectation of arousing the "money getters" of the country against the Democratic candinates. If there is the slightest chance for "Harry Smith to give his investigations a strong Republican flayer, he can be depended upon to do it in a manner that will give satisfaction to the most intense partisan.

The Legandicans must be in a desperate

intense partisan.

The Republicans must be in a desperate situation when they decide to make the State bank question a leading issue in the campaign.

They have tried to create some enthusiasm over the claim that they might break the solid over the claim that they might break the solut south, but intelligent people could not be im-posed upon by any such wildent speculation. Then it was predicted that the Hill Democrats in New York would holt the Cleveland ticket, but the recent specches of the junior Senator from that State have completely upset all cal-culations in that direction. The friends of the Administration are far from satisfied with the situation.

BUZZARD'S BAY, Sept. 25.-Don M. Dickinson and Josiah Quincy called on Mr. Cleveland today. Mr. Dickinson reported the present outlook in New York as satisfactory to the Democratic party.

Du chesa County Democrata Aroused.

POUGHEEPSIE, Sept. 25.-There were two Democratic mass meetings in Duchess county on Saturday and two Democratic banners were unfurled. At South Grangeville speeches were made by Elchard E. Connell of the News Press and William M. Kotcham of this city. At the close of the meeting J. Roseli, a farmer who has for years been a prominent Republican, stepped up and joined the Cleveland and stevenson Club. In the evening there was a banner raising at Magawan. The meeting, which was held in Metropolitan Hall, was the largest in the history of the town. State Assessor William H. Wood and R. E. Connell made speeches. A feature of the meeting which created great enthusiasm was a speech by James C. Meyer, a leading lawyer of the town, who has heretofore been a prominent Republican. Over a housing people attended town, who has heretofore been a prominent Republican. Over a thousand people attended the meeting.

Cinn-nn-Gael Not I ledged to Harrison. A Republican newspaper said resterday that at a meeting of Irish-Americans the Clan-na-Gael had been pledged to the support of Harrison by one of its members named St. John fishing. The various clubs of this city and vicinity included in the organization, when on an excursion to Iona Island yesterday, passed resolutions declaring that taffney was not a member of the Clan-na-Gael and that no one has authority to use the name of the society to further the interests of any political candidate.

TROUBLE IN THE OLYMPIC CITE The Disposition of the Profits of the Re-

cent Fights Causes Disseasion. New ORLEANS, Sept. 25 .- A sensation was caused among the sport-loving people of the city when it became known that there was a good-sized row among the members of the Olympic Club, before which so many noted pugilists have appeared.

To-day notice was given over the signature of a stockholder that an informal meeting of the club would be held on Monday night to discuss matters of importance. The fact that the card did not bear the usual signature of the Secretary of the club Mr. Ross, caused comment, and to-night the facts in the case were ascertained.

At the meeting of the Board of Directors of the club on last Wednesday that body voted to give President Neel the sum of \$1,500 as a return for the money spent in promoting the fistic events which took place before the organization this month.

It was also decided to give \$750 to each of several members of the Contest Committee. When the news of the action of the Board became known there was a howl among the small fry in the organization.

The statement was authorized to-night that the club cleared by the fights \$105,000, and that when all the expenses were paid there remained a gain of nearly \$45,000. A talk with leading members of the club showed that the objectime element does not number more than 150, while the membership of the club is nearly 1,500. the club would be held on Monday night to

JACKSONVILLE, Fla., Sept. 25,-United States Senator Matthew Stanley Quay of Pennsylvania passed through Jacksonville to-day on his way to Philadelphia, after a month's outing at his cottage in St. Lucie, on the Indian River Inlet. So my first duty is to get my health back -not to jump into polities."

"Do you think any effort will be made to placate you before the November elections?" "I don't know why there should be. I don't know that there's any reason to suppose that I need placating. My relations with Harrison have been cordial-as far as it was necessary for them to be. When I've wanted anything of him. I've always gone straight to him

for it, and I've generally got it.

"The newspapers have had a good deal to say about our strained relations, and have charged open personal hostility between us. But you know how that is yourself:" and the Senator's right eye dropped its lower lid a little.

Senator Quay said that he read in the newspapers that President Harrison had actually called on Platt in New York.
"I would hardly believe it," he added. "Has

I would narry beserve it, no added. This report ever been confirmed? I should want it to be before I took any stock in it."

He was assured that the Administration had succeeded in actually "placating" the New York Republican boss, and then he was asked: "So the existing relations between you and the Harrison Administration are not likely to be changed at all in the next six weeks, are they?" the changed at all in the next six weeks, are ther?"

sure for Harrison, isn't it? I venothing to ask of the Administration, and I don't know what I've got to give it if it should ask for anything from me."

When asked about the general situation nolitically, Senator Quay said: "I don't speak from the inside, of course. I'm no longer a member of the National Committee, and have not been in close touch with the situation for many weeks. But it looks to me as if Harrison's election was a dead certainty.

"No changes in the West can change the result, in my opinion. If Harrison carries New York he will be elected, and he's going to carry New York, too. I have seen some statements to the effect that, by reason of a fear of the trade disturbances incident to the tariff legislation, which would, be inevitable with a Democratic Congress and a Democratic administration, business meen in the New York Democracy favor Harrison's re-election. But I don't take any stock in this. Cleveland will be beaten by dissensions in the New York Democracy—nothing else. My belief is that the business peoplethroughout the country would as soon have Cleveland for President as Harrison as far as their business interests go. A split in his party, a lack of unity in sentiment for him is what is going to defeat him."

"Do you look for anything sensational in Cleveland's letter of acceptance, Senator?"

Well, it's a long time coming, isn't it? I think he must be wrestling with the tariff plank and that other one committing his party to an advocacy of 'wildeat banks,' don't you? I can't for the life of me see how Cleveland can endorse the Chicago tariff plank. He must be preparing a modification of it in some way; and that wildeat banks | don't see how he can commit himself to the Democracy's wildcat rolley. Sometimes it seems to me actually as if that Chicago platform had been framed especially the bankers. He kept the national banks well stuffed with Government deposits, or rather Secretary Fairchild did it for him. There was a big Treasury surplus, you remember, in those days, so I can't see ho

"Do you think any considerable number of Mugwumps would support Pattison, a Democrat, for the Senate?"

"Oh, he's a Mugwump himself, a Mugwump hemocrat. You know what that is."

The Senator laughed heartily when told of the opinion recently advanced by some Northern newspapers that he was down here in Florida. "Juggling with the electoral vote."

SHOT THROUGH THE HEART. One Italian Kills Another in Jersey City

THE SUN, MONDAY, SEPTEMBER 26, 1892.

Michael Faccuchio, an Italian, 24 years old, was shot a few minutes before 8 o'clock last night by Joseph Delmartio in front of 301 Fourth street, Jersey City. The bullet, which was from a 38-calibre five-chambered revolver. penetrated Faccuchio's heart, and he

dropped dead on the sidewalk. The murderer ran away and was pursued by Philip Feltz. The fugitives scaled a fence, ran through a stable yard, and out into Colgate street, with Feltz in hot pursuit. He was over taken at the corner of Second and Colgate streets. When Feltz caught him he tried to draw his revolver, but his captor, who is a stalwart young man, caught him by the arm and held him so that he could not reach his pocket. Feitz marched his prisoner down Second street toward the First precinct police station, and had gone about two blocks when he met Policeman Dougherty

precinct police station, and had gone about two blocks when he met Policeman Dougherty and turned the prisoner over to him.

Somebody brought out a sheet and threw it over Faccuchio's body, which remained lying on the sidewalk until Police Superintendent smith and Capt, helly arrived and had it removed to an undertaker's. Before the body was removed a crowd of 2,000 or 3,000 people, nearly all Italians, had gathered around and filled the air with their cries.

Faccuchio's widow, who is a bride of only six months, threw herself on her husband's poly and gave utterance to a series of ptering shricks, which were enough to make a listener's blood run cold.

shricks, which were enough to make a listener's blood run cold.

It was impossible to ascertain the cause of the murder. Feltz, who lives at 339 Fourth street, seems to have been the only evo-witness of it. He says Incouchio was standing near a lomp post in front of Delmartic's house when Delmartic came down the stoop. He said something to Faccuchio in Italian and the latter answered. Instantly Delmartic whipped out his revolver, fired, and ran.

Diligent inquiry through the Italian quarter failed to throw any light on the subject. All that could be learned was that the men quarrelied about two weeks ago, and were at enmity. Delmartic is a single man. When questioned by Superintendent Smith, he denied knowing anything about the shooting.

He also denied that he had a revolver, although the weapon with which the shooting was done was found in his pocket. He said somebody must have put it there. Afterward he said there was a crowd around his stoop when he came, and he asked to be allowed to pass through.

when he came, and he asked to be allowed to pass through.

The crowd set on him and began beating and kicking him, and he ran away as soon as he could make his secape. He denied that he ever carried a revolver, Mrs. Labarto, with whom he boarded, says he always carried one. Feltz is positive there was no one near the stoop except the murderer and his victim. There was no altercation and no quarrelling. Lewis Collurone, a boy, heard the shot and saw the man running away. There was smoke coming out of something the man held in his hand. The boy believes the fugitive was Delmartio.

A SPLIT IN SPURGEON'S CHURCH. The Sorlery Divided on the Question of the

London, Sept. 25 .- A division in Spurgeon's Tabernacle is assuming threatening proportions. The cause is that Spurgeon's son Thomas, has become a close competitor with the American preacher, the Rev. Dr. Pierson. for the pastorate. The officers of the Tabernacle favor Dr. Pierson, whom virtually they have already called to the charge. A numerically strong faction, consisting of uninfluential members, however, will make every effort to oust Dr. Pierson and Install Thomas Spurgeon, who, they say, in his three months' service in the pulpit immediately after his father's

vice in the pulpit immediately after his father's death, showed himself to be an able and broad-minded preacher. Thomas spurgeon is more than willing to accept his father's place. His supporters are circulating in the congregation a petition, returnable on next Wednesday, requesting the officers of the church to grant the wish implied in one of their tate paster's last sermous, that his son should succeed him.

The adherents of Mr. Pierson urge the deacons to hold at once a special church meeting to extend formally the call; to him. If this meeting he held, the anti-Pierson party will insist that the correspondence as to Dr. Pierson's return to London he produced.

Mr. Errokaman, conspicuous among the anti-Piersonnies, wrote at length to Dr. Pierson on the surject, and received a letter saying that, while deeply impressed by the invintion of the officers to minister temperarily to the church, Dr. Pierson would not for a moment hinder the calling of anybody likely to serve the church more acceptably. In conclusion, Dr. Pierson said he prayed to God that the church would be guided to a unanimous choice.

Stoux Falls, S. D., Sopt. 23.-THE SUN reporter has looked through the appearance docket at the County Clerk's office since April. 1800, the date at which the divorce business of this city first began to show itself, to find out how many divorce cases had been filed. The book, which runs from April, 1890, to the last of July, 1892, contains 1,159 cases, of

last of July, 1892, contains 1,159 cases, of which 130 are actions for divorce. This is a pretty fair average, as it shows one case in nine to be divorce cases.

In the second book, which has been running since Aug. 1, 1892, there have been filled 54 cases, out of which 23 cases, or nearly half, are actions for divorce. This makes 153 divorce cases which have been filled since April, 1890, out of 1,213 cases decketed in that time. This is one case in every eight filed during the time in question. This, of course, is not over half the cases handled by attorneys in this city, as several firms bring all their cases in other counties to avoid publicity. It is a safe estimate to make that the attorneys in this city have handled 400 divorce cases since April, 1890, or over 200 a year.

The story of the premature explosion of a charge of gunpowder aboard the cruiser in the sham battle at Fort Mellenry on Sept. 17, as told by the officers is no follows: at Fort Mellenry on Sept. 17, as told by the officers, is as follows:
Four shots had been fired from the after starcoard G-inch rifle, which was in charge of
licut. Achierman and sixteen men. The work
of sponging the cannon after the fourth shot
was not properly done, and a piece of the
woollen sack in which the charge had been encased was left smouldering in the breech. The
fifth charge consisted of thirty-three pounds
of brown powder. The smouldering rag set
fire to it before the breech was closed. But for
this accident, that, barker said, there was not
a fault in the working of the guns.
The official inquiry into the cause of the explosion will probably be held at the Brooklyn
Navy Yard this week.

RAN OFF AFTER A BUTTERFLY.

That Was Two Days Ago, and Little Allee Carla Basn't Been Seen Since. HARRLTON, Pa., Sept. 25 .- Searching parties are out to-night scouring the densely wooded mountain region agout the town of Harleigh in quest of Alice, the 4-year-old daughter of of John Czaja. The child wandered away on Friday afternoon, and has not been seen since Harleigh is a little mining town situated in the valley just below this city, and the Czajas

live on its outskirts.
On Friday afternoon Alice and her nine-yearold sister, Maga, were playing together in the old sister, Maga, were playing together in the fields surrounding their home. The smaller child's attention was attracted by a butterfly, and she started away in pursuit, following it, her sister says, in the direction of the forest. Maga raid no more attention to Alice, and when supper hour drew near she concluded that the little one had become tired and had gone home, so she decided to follow hor there.

Mrs. Czaja was greatly alarmed when Maga returned alone. Together they searched the

follow hor there.

Mrs. Czaja was greatly alarmed when Magareturned alone. Together they searched the house and outbuildings, but, finding no trace of the missing child, they went into the woods. The now thoroughly frightened mother's cries startled the neighbors, and soon half a hundred men, women, and children were hurrying aimlessly over the mountains calling out the lost child's name.

Night was now coming on, and when the mother realized that her little one was wandering about in the dark lorest with its rushing streams and sleep precipiees, liable to become the prev of wild animals, she became erazed with grief.

Ascarching party of the men of the village was finally organized, and, headed by Alica's father, they started out with lamps and fanterns. All night long the mountain echoed with their shouts; but when morning dawned it came without any trace of the child having been discovered. On Saturday and throughout Saturday night the search was centinued, and to-Jar, the miners being idle, the ranks of the searching party were doubled, but this evening child.

A TRUCK DRIVERS' BEER PARTY.

It Results in Enids on the Neighbors and a Small Riot-The Raiders Arrested. George Blackbam, a truck driver living at the corner of Locust street and Skillman avenue, Long Island City, celebrated the release of his daughter from the House of Refuge yesterday with several kegs of boor. He invited a party of friends from Greenpoint, in-

vited a party of friends from Greenpeint. Including George Lewis, George Smith of 191 Dupont street, and Edward Fitzgerald of 179 Green street, to join in the jubilee.

All are truck drivers in the employ of E. C. Smith & Co. They assembled at Blackham's house at 5.1° M. After emptying several kegs of beer the gang broke into James Bealey's milk store on Laurel Hill avenue and attempted to clean out the place. George Foy, one of the gang, who counselled moderation, was set upon and severely beaton.

They visited the dwelling house of Peter Wright, but were repulsed by the proprietor with a large sledge hummer. By this time a crowd had gathered, sticks and stones began to fly, and several pistol shots were fired.

Mrs. Blackham was struck with a stone upon the head and knocked senseless. An alarm was sent to the Hunter's Point volice, and all of the reserve were despatched to the scene of the conflict.

PASTOR FIRGIN A CONVERT.

He Gives the Gold Cure a First-class Pulpit Recommendation.

The Rev. Dr. Samuel H. Virgin of the Pilgrim Congregational Church, Harlem, devoted his sermon last night to booming the so-called 'gold cure" for drunkenness. He read a string of fifteen or twenty certificates from the cured, and said he knew some of them. and knew what they said was true. The work of a particular gold-curist in this city, name and address given, was the subject of his remarks. One of the certificates, he said, was from the President of the Board of Trustees of a leading Presbyterian church in New York who had been a drinking man many years. An experiment had been tried on the trustee, who said he had lost all taste for liquor. The Doctor put a glass of whiskey behind the trustee dehair, and in the perfectness of his cure the trustee detected the presence of the whiskey by the feeling that something was wrong in the room.

Dr. Virgin announced that the gold treatment was harmless and had no deleterious effect on brain, eyes, or nerves. He did not take up a collection for the purpose, but said he was willing to accept contributions from any and all who cared to advance the cause of temperance by aiding the advance and extension of the gold cure. of a particular gold-curist in this city, name and

CHICAGO, Sept. 25.-An advance statement of the earnings and traffic of the Atchison system to June 30 shows an encouraging state of affairs. The total tonnage was 8.761,765, an increase of 198,542 tons, making an increase in freight earnings of \$2,473,735.

An analysis of the freight tonnage is esne cially satisfactory to the management, as it shows the largest increase in articles which constitute the permanent items of freight constitute the permanent items of freight traffic. The output of mines in 1891 was 37 per cent, of the total tonings.

In 1832 it is about 45 per cent. Manufactured articles also imped from 5 per cent in 1830 to 11 per cent, in 1831 and about 16 per cent in 1832. Live stock in 1831 made up 13 per cent, of the cutire tonings, while in 1832 it will be 16 per cent.

Including lumber, the total increase in tonings is 1.029,847 over 1831 in these items. The aggregate grain tonings shows an increase for the year, but in proportion to the other tonings is shows a decrease of about 4 per cent. per cent.

As the transportation of grain is the least profitable of the items mentioned, the proportional decrease is a gratifying one. Vice President Reinhart computes that not only will all interest charges be met, but that there will be a bandsome surplus to expend in betterments.
